2. Also available by clicking on Power Point below and downloading it in sections with presentation notes but without the videos and narration. The videos are posted on this page. It is also possible to compile the sections into one presentation:

Compile a PowerPoint Presentation from Sections

- Download all the sections and open the first section in PowerPoint.
- Click the end of the slides, select "Insert" from the top menu bar and then choose "Slides From File." Browse for the file name for the next section and then click the "Open" button." Click the "Insert All" button.
- Repeat Step 2 until the slides from all sections are compiled into one PowerPoint presentation. Select "Save As," type the desired file name and click the "Save" button.
